

Léo Mans

Guangzhou, China

As a Master's graduate in Immersive Technologies, I am actively seeking a PhD opportunity in Human-Centered VR. Having developed various VR applications, my research interests focus on three pillars: Social VR (analyzing behavior & co-presence), Affective Computing (enhancing emotions), and Human Enhancement (cognitive/behavioral training). I aim to push VR boundaries to better understand and elevate human potential.

EDUCATION

Master's Degree in Industrial Engineering

Arts et Métiers, Chalon-sur-Saône, France

2024-2026

- Specialization: Management of Interactive 3D Technologies – Virtual Reality – Augmented Reality – Image Analysis – 3D Modeling

Bachelor's Degree in Computer Science

University of Lorraine, Vandoeuvre-lès-Nancy, France

2021-2024

- Specializations: Robotics – Cybersecurity – Web Development – Networks – Software Development

PROFESSIONAL EXPERIENCE

Visiting Research Student

The Hong Kong University of Science and Technology
Guangzhou, China

February 2026 - August 2026

- Designed a virtual reality application focused on discovering the most effective way to visualize bacteria in a kitchen environment.

Virtual Reality Engineering Intern

University of Clermont Auvergne, Aubière, France

April 2025 - July 2025

- Designed a virtual reality application aimed at facilitating the learning of mathematical concepts through a playful and immersive experience.

Software Development Intern

Jacques PREVOT Artifices, Sarrey, France

April 2024 - June 2024

- Designed a decision-support algorithm to automatically recommend the optimal carrier for shipping orders containing hazardous materials, considering logistical and regulatory constraints.

Pyrotechnics Technician

Jacques PREVOT Artifices, Sarrey, France

June 2023 - July 2023 / June 2024 - July 2024

- Participated in the preparation, logistics, and safe execution of pyrotechnic shows for public and professional events, ensuring compliance with safety protocols.

PROJECTS

Reproduction of a Glass Production Line in Virtual Reality

Vertech'

1 January 2025 - 15 January 2025

VR application for rockfall risk awareness

GRDF

1 January 2026 - 15 January 2026

SKILLS

Application development

Unity

Unreal Engine

SFML - SDL2

Android Studio

Graphic design and multimedia tools

3dsMax

Blender

Premiere Pro

Photoshop

Data and image analysis

MediaPipe

OpenCV
